☆ **NOTE: Some tests require special containers as indicated above - please call the lab for these items.**

Please Note: It is a violation of state law for the homeowner, prospective buyer, or the realtor to collect radon samples for real estate transactions. You must hire a state registered radon tester. For more information and a current list of registered radon testers please visit the State of Maine Radon website. <https://www.maine.gov/dhhs/mecdc/environmental-health/rad/radon/hp-radon.htm>
 Any questions, comments, or complaints concerning individuals or firms providing radon services in Maine should be directed to: Radiation Control Program State House #11 Augusta, ME 04333-0010 (207) 287-5676. The State of Maine requires the reporting of radon test results in accordance with the Act (22 MRSA sec. 771 et seq.) The following information for all tests completed by A & L Laboratory will be reported to the state on a monthly basis: Zip code, sample ID#, radon laboratory result, floor tested, street address of the building, town and if there is a mitigation system currently installed.

A&L Laboratory is certified by the State of Maine Laboratory Accreditation Program.

A&L Laboratory reserves the right to subcontract work to another certified laboratory at any time, should the need arise. Reasons for subcontracting work may include but is not limited to excessive workload, temporary incapacity or requested testing beyond the laboratory's expertise or certification. The laboratory performing the subcontracted work shall be indicated on the final report and any non-Maine accredited work will be clearly identified.

1. For mortgage purposes FHA requires a first draw lead sample. This must be sampled in a liter container according to special collection instructions. If you should choose to do an FHA test package with out the First Draw Lead we will run a lead analysis from the regular sample and report it as a source lead. VA only requires a source lead.
